

# What is the TMMi® Foundation?

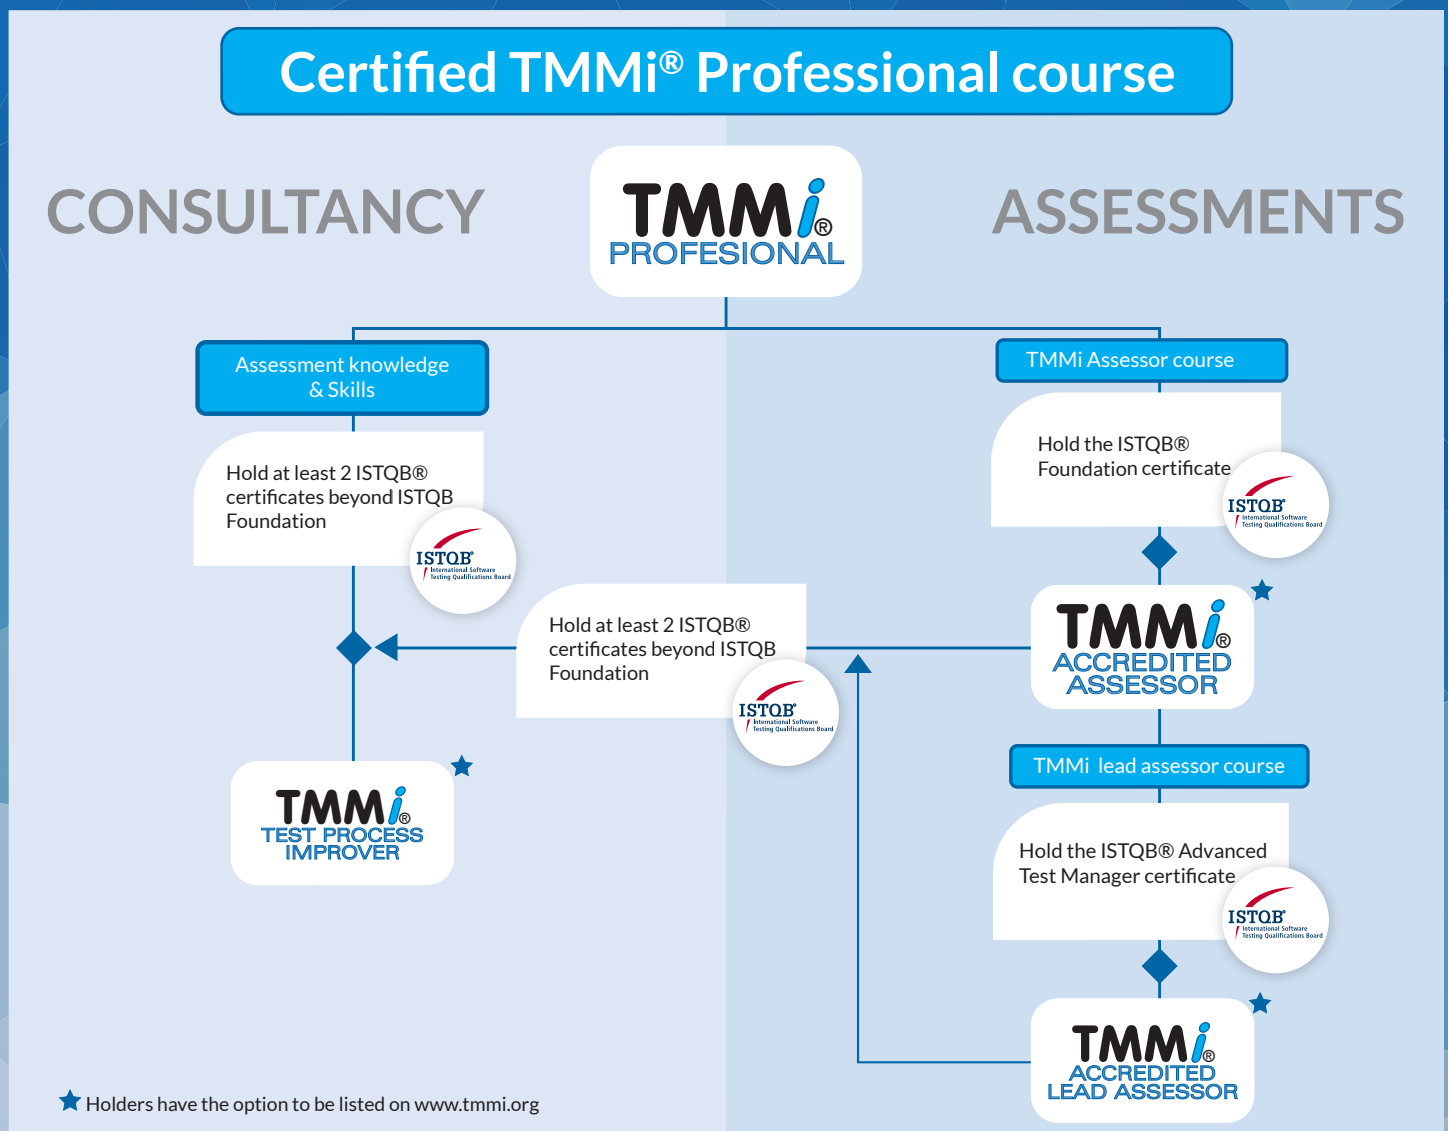

TMMi is the world-leading model for test process improvement. Using TMMi, organizations can improve their test process and even become accredited when they comply with the requirements. The TMMi Foundation have set up a global assessment and certification scheme for test organizations, through local accredited TMMi assessors and lead assessors, as well as a certification scheme for test professionals offered internationally by TMMi recognized training providers.

## Career Path

The TMMi career path presents two main streams:

- **Consultancy** those who provide guidance on TMMi based test process improvement and lead test improvement projects.
- **Assessments** those who perform informal and formal TMMi assessments.

Test professionals can progress in their career and ultimately become a Certified TMMi Test Process Improver and/or accredited TMMi Lead Assessor.

# Are you ready to take your next step?

Here is a brief explanation about each of the four types of TMMi certification / accreditation that can be achieved:
